H.W

Compute time complexity using frequency count for following snippets

①
```
for(i=1; i<=10; i=i+2){
    i = i*10;
    printf("%d", i);
}
```

②
```
i=1;
while(i<=50);
{
  printf("hello");
}
```

③ for(i=1; i<=20; i++);

④
```
for(i=1; i<=n; i++){
    printf("hello");
    printf("world");
    printf("i=%d", i);
}
```
